## NEVER PLAN A DATE AGAIN

Leave the dirty work to Lavish Lifestyles and reap the rewards.

There aren't many singles out there who look forward to planning a date. And it can get a little sticky bringing all of your dates to that same favorite place. When you start getting sideways smirks from the waiters each time you walk in the door with someone new, it may be time to change your personal planning.

Lavish Lifestyles is a company that 28-year-old founder Cynika Drake started as an answer to just that dilemma.

"I was constantly planning dates and trips as a

hobby for my coworkers and friends," Drake says. "I decided I could turn it into a business."

Lavish Lifestyles customizes each experience according to your specifications. Flying charter planes, renting yachts, or driving through Malibu Canyon to a winery in a classic Rolls-Royce are just a few examples of the surreal transport available.

"We never blindly recommend," says Drake. "Our standard is going directly to the businesses and seeing if they fit our clientele." All of their luxurious dates are planned according to each client's passions and desires, whatever they may be.

"We specialize in romantic experiences and unique adventures," Drake says. "People have no idea how much more fun they could be having on their dates if they leave the planning to professionals."
